DIRECTOR'S REPORT FOR THE HALF-YEAR ENDED 31 DECEMBER 2016

Your directors submit the financial report of the Rox Resources Limited ("the Company") for the half-year ended 31 December 2016.

DIRECTORS

The names of the Company's directors in office during the financial period and until the date of this report are:

Mr Stephen Dennis

Mr Brett Dickson

Mr Ian Mulholland

Directors have been in office since the start of the financial period to the date of the report, unless otherwise stated.

REVIEW OF OPERATIONS

The loss for the half-year ended 31 December 2016 was \$1,362,138 (2015: \$1,590,107). This loss was influenced by expenditure on exploration activities during the period totalling \$302,045 (2015: \$814,114) and total corporate expenses of \$771,677 (2015: \$307,441).

During the period the Company successfully completed a placement of shares which raised \$945,870 (net of expenses of the placement) through the issue of 55,555,556 shares at \$0.018 each.

Projects

Mt Fisher Gold-Nickel Project, WA (Rox 100% and option to earn 100%)

During the period the Company advanced plans for an RC drilling program at the Horatio, Mt Tate, Cutlass, and Sabre North prospects.

Further diamond drilling is also being planned at the Sabre deposit to make progress towards the definition of a maiden mineral resource there. Sabre has only been subject to relatively shallow RC drilling, and the majority of the known EM conductor at Sabre has not been tested by deeper drilling.

The Company was granted \$119,200 Exploration Incentive Scheme (EIS) funding for deep drilling at Camelwood. Together with the existing \$72,000 EIS grant for Sabre drilling, the Company has a total of \$191,200 of EIS funding available for drilling at Fisher East.

Collurabbie Nickel-Copper-PGE Project, WA (Rox to acquire 100%)

During the period the Company entered into an agreement to acquire the Collurabbie project. A number of Conditions Precedent for the acquisition remain outstanding but are expected to be completed in the first quarter of 2017. Once the acquisition is finalised, the Company has an aircore drilling program planned.

The Company believes the acquisition of the Collurabbie project is an excellent strategic opportunity and fit with its current portfolio for the following reasons:

- It is an advanced 100% owned project with synergies to Fisher East
- This is a counter cyclical investment, leveraged to nickel price upside
- There is a low acquisition cost of \$25,000 cash and 7,500,000 Rox shares
- Low work commitments on the tenements of \$90,000 per year
- Drill ready gold and nickel targets, with high grades already intersected

Mt Fisher Gold Project, WA (Rox 100%, Doray earning up to 75%)

During the period, under an earn-in joint venture with Doray Minerals Limited ("Doray"), a heritage survey was completed covering the area of an aircore drilling program that Doray plans to commence during the first quarter of 2017.

Reward Zinc-Lead Project, NT

During October 2016 Teck Australia Pty Ltd ("Teck") advised Rox that it would exercise its pre-emptive right in relation to an offer previously received from Marindi Metals Limited ("Marindi") for the purchase of Rox's 49% interest (being diluted to 30%) in the Reward Zinc Project in the Northern Territory.

Since the end of the period Teck and Rox have completed the transaction with a total of \$15,827,273 paid to Rox. This amount is comprised of:

- \$7,850,000 in cash, being \$8 million less the \$150,000 deposit that had been already paid;
- \$2,727,273 in cash, which Teck elected to pay in lieu of the share component as provided for in the agreement;
- \$5,250,000 in cash, being the value of the Promissory Note that Teck elected to pay up front.

In addition, there remains a deferred payment of \$3,750,000 in cash due to Rox at the earlier of a Bankable Feasibility Study being completed on the project, or 6 years.

The total costs of the transaction are likely to be ~\$1 million, inclusive of fees which are potentially payable to other parties following Teck's decision to exercise its pre-emptive right.

Marindi has advised Rox that it was reserving its rights in relation to the sale and lodged a writ against the Company seeking specific performance of the sale to Marindi, and/or damages. Rox has denied the claims made by Marindi and has been preparing its defence.

A settlement of \$220,000 was reached by the Company with IMI Zinc Exploration Pty Ltd ("IMI") in relation to their reasonable expenses related to an earlier purchase offer made by IMI.

Bonya Copper Project, NT (Rox 51%, earning up to 70%)

No field activity occurred on the project during the period and after a review, Rox has offered its interest in the project for sale or joint venture.

MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL PERIOD

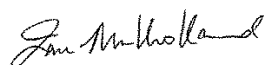

Since the end of the period Rox has completed the sale of the Reward project to Teck resulting in a total of \$15,827,273 paid to Rox. There remains a deferred payment of \$3,750,000 in cash due at the earlier of a Bankable Feasibility Study being completed on the project, or 6 years.

No other matter or circumstance has arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial periods.

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2016

NOTE 1: BASIS OF PREPARATION OF THE HALF-YEAR FINANCIAL REPORT

Basis of Preparation

This financial report for the half year ended 31 December 2016 is a general purpose condensed financial report prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

The half-year financial statements do not include all notes of the type normally included within the annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial report.

It is recommended that the half-year financial statements be read in conjunction with the annual financial statements for the year ended 30 June 2016 and considered together with any public announcements made by Rox Resources Limited during the half-year ended 31 December 2016 in accordance with the continuous disclosure obligations of the ASX listing rules.

Adoption of New and Revised Standards and Interpretations

The accounting policies adopted in the preparation of the half year report are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 30 June 2016, except for the adoption of new standards and interpretations mandatory for annual periods beginning on or before 1 July 2016, noted below:

AASB 2014-4 Clarification of Acceptable methods of Depreciation & Amortisation (Amendments to AASB 116 & 138)

AASB 2015-1 Amendments to Australian Accounting Standards – Annual Improvement Cycle 2012-14

AASB 2015-2 Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 101

AASB 2015-5 Amendments to Australian Accounting Standards – Investment Entities: Applying the Consolidation Exception

AASB 2015-9 Amendments to Australian Accounting Standards – Scope & Application Paragraphs [AASB 8, AASB 133 & AASB 1057]

The adoption of the above standards did not have a material effect on the financial position or performance of the Company.

The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Going Concern

This report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The Company has incurred a net loss after tax for the period ended 31 December 2016 of \$1,362,138 (2015: \$1,590,107) and experienced net cash outflows from operating activities of \$960,707 (2015: \$1,631,935). At 31 December 2016, the Company had net current assets of \$601,440 (31 December 2015: \$1,333,590).

Notwithstanding the above, the Company completed the sale of the Reward project on 15 February 2017 on which it received a total cash consideration of \$15,827,273 from Teck Australia Pty Ltd for disposal of its 49% interest in the project. As a result of this event, the Directors believe the going concern basis of preparation for the 31 December 2016 interim financial report is appropriate.

On behalf of the Board

I. MULHOLLAND

Director

Perth, Western Australia

Dated this 15 day of March 2017

To the members of Rox Resources Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Rox Resources Limited, which comprises the statement of financial position as at 31 December 2016, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the company's financial position as at 31 December 2016 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Rox Resources Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

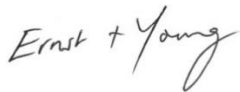

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Rox Resources Limited is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the company's financial position as at 31 December 2016 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
